Re: Steelcraft Falcon SKU Production Update

Dear Valued Customer,

As previously communicated, Steelcraft was using a temporary supply partner for Falcon Stock Door SKUs. Starting on January 15th shipments for these will start to be as previously constructed through Republic. While inventory depletes, you may receive a mix of product produced by our supply partner and product produced by Republic. There will be no mixing within a 20 pack bundle.

As a reminder, construction standards for the Republic produced doors are:

- 1) All Falcon SKUs will have a flush top.
- 2) Door construction will remain as a exposed edge seam with beige primer
- 3) The door bottom channel is recessed 9/16"
- 4) Non-SKU Falcon Doors, will continue to be offered and produced in Blue Ash, OH with no change to the offering, pricing or lead-time.

Thank you for your patience and understanding through this temporary supply change that occurred.

Jason Doose
